

"The R2-D2 Build & App"

When your R2-D2 is complete, you will be able to download the special control app to your smartphone or tablet. Then fit the rechargeable batteries, switch on and connect R2-D2 to your wi-fi network. With his sensors, camera, microphones, sophisticated logic boards and powerful motors, R2-D2 can interact with his owner, move and behave just like the astromech from the Star Wars movies.

R2-D2 Droid Control App

The R2-D2 Droid Control App is now available to download on the following App stores:

Google Play - <https://play.google.com/store/apps/details?id=com.bullb.r2d2>

App Store - <https://itunes.apple.com/gb/app/r2-d2-droid-control/id1403826626?mt=8>

Please note this app is only for use with a mobile phone with the following system requirements:

- Apple iPhone 5S or later running iOS 11 or higher.
- Android smartphones running OS 4.4 KitKat or higher.
- Apple iPad running iOS 11 or higher.

If you have an android tablet and encounter a problem with the app on your device, please contact our customer service team with the details of your device, its Operating System (iOS / KitKat) and the problem you are experiencing in order to provide the relevant fix.

Customer_Service_Aus@deagostini-service.com

Once it is installed on your device, please refer to the online User guide in our downloads section for detailed instructions on using it to control R2-D2.

If you need any further advice, please contact Customer_Service_Aus@deagostini-service.com

Batteries for Your R2-D2

These batteries are optimised for use in R2-D2, but other suitable batteries are available from independent suppliers.

Important Do not charge the batteries, attempt to fit them into the battery box, or install them in R2-D2 until instructed, when all the internal wiring is connected up.
